while you are away or after you return home

IMPORTANT:

We do not accept cats without a current vaccination record card for feline enteritis and feline influenza. We will ask to see it so please remember to bring it with you.

We very strongly advise you use vet-prescribed flea and worming products as these are far more effective than shop-bought treatments. Should it be necessary for the cattery or a vet to treat your cat for parasites during boarding, you will be liable for the cost and this must be paid in full upon collection.

We do not board un-neutered/un-spayed cats over the age of 5 months, diabetic cats or cats who currently have cat 'flu. Nor do we administer injectable medication.

Please remove cat collars for safety reasons before arrival.
